What is Slippage?

Trading · https://windsorbrokers-chn.com/knowledge-base/trading/what-is-slippage/

Slippage is the difference between the expected price of an order and the actual executed price of the order. We endeavor to fill orders at the price specified by the client however in the cases of liquid, high volatile market &/or in cases of markets opening with gap, 'market' and /or 'stop' orders may be subject to slippage.
